*(CPD credit)

COMMUNITY SUPPORT

e.g. Math Counts, Science Fairs,
School Programs, or Merit Badges
promoting technical careers in **Science,**
Technology, Engineering, and Math.

The **REGIONAL ENGINEERS & SCIENTISTS** of **CINCINNATI** was established in 1966 as a group of professional men and women representing a variety of technical disciplines. Our members include students, teachers, engineers and scientists, both working and retired, and those with an avid interest in science from the Southwestern Ohio, Northern Kentucky, and Southeastern Indiana area.

Join us for pleasant dining and scientific continuing education that includes friendly debate on cutting edge technical issues and new industry developments. Attend a tour, join a committee, or become involved in a project to promote science and engineering careers. Learn more at www.resc.org.
